JAMES WILLIAM SMITH-BETSILL, SCHOOL BASKETBALL STAR, ACTIVIST AND PUBLIC SERVANT

(By Paul Zeise)

James William Smith-Betsill, a high school and college basketball standout at Franciscan University who later became a community leader and civil rights activist in Wilkinsburg and Hazelwood, has died.

Mr. Smith-Betsill, 67, was diagnosed with leukemia in February and died May 5 at Harrisburg Hospital of a viral infection.

Mr. Smith-Betsill was born James Betsill in 1935, and lived in Hazelwood until he was a sophomore in high school. He was 6 feet 6 inches tall, athletic and strong, but as a young black man playing in the City League of Allderdice High School, his opportunities to earn a college scholarship were limited.

The summer before his junior year, however, he was recruited to play at Homestead High School by the school's coach, Charles "Chick" Davies, so he moved in with a family in Homestead and had his name legally changed to James Smith.

Mr. Smith-Betsill's brother, Lawrence Betsill of Doylestown, Bucks County, said changing his name and moving across the Glenwood Bridge was one of the most important moves his brother ever made.

"At that time, blacks needed to do whatever it was they could do in order to get into college sports," said Betsill.

"The adoption was purely for basketball reasons. Jim still had a bed at our house and came home to sleep most nights." The coach at Allderdice tried to file a suit to stop it, but at the time the WPIAL couldn't do anything about it and neither could the courts because the Smiths were his legal guardians.

"Had he not made the move, he probably wouldn't have gotten a chance to go to college."

After earning all-state honors twice at Homestead and graduating in 1954, Mr. Smith earned a scholarship to play basketball for the College of Steubenville, now Franciscan University.

Mr. Smith-Betsill played for coach Hank Huzma at Steubenville and became a two-time small college All-American. He averaged more than 20 rebounds per game throughout his career and his 2,427 career rebounds is believed to be an NAIA record.

He was drafted in the second round of the 1958 NBA draft by the Boston Celtics. But he never got a chance to play for the Celtics because he also got drafted into the Army.

He continued is basketball career in the Army and toured Europe and the United States as a member of the All-Army team. But he developed knee problems and after he was discharged in 1960, he failed tryouts with the Celtics and also with the Pittsburgh Rens of the ABL.

"Jimmy is the best player to ever come out of the University of Steubenville. He put this school on the map the same way that Maurice Stokes did for St. Francis," said Kuzma. "But when he came out of the Army, he wasn't the same player because of his knees. It is a shame, because had he played right out of college, he'd have probably had a nice NBA career and be remembered like the Chuck Coopers and Maurice Stokes."

Mr. Smith-Betsill moved to Wilkinsburg in the early 1960s, was hired by Action Housing and began a career of public service that lasted until he retied in 1997.

His first job was with the U.S. Office of Economic Opportunity program as a community organizer. A big part of his job was training short-term volunteers to become community servants and be directed a number of redevelopment projects in Hazelwood.

He also trained men to take and pass apprenticeship tests in order to develop trades.

But unions were segregated at the time and blacks weren't given opportunities to join them

Mr. Smith-Betsill organized many protests and pickets, which eventually helped to break the color barrier in several powerful unions.

"During those days I was like his bail bondsman," said his widow, Mary Harris-Betsill. "He was constantly getting arrested because he was picketing at the head-quarters of unions and at various construction jobs. And the fact that he was leading protests wasn't popular. We received countless death threats, bomb threats and burning house threats. Jim was a hero of sorts to the people in the community."

He also was a calming influence in Hazelwood when riots broke out in Pittsburgh in 1969

"Every day during those riots, Jim would get up early and walk the streets and encourage people to stay calm," said Harris-Betsill. "Some days, he'd have a lot of people walk with him; others he'd be by himself. It was tense at that point, but he was determined to make sure that the neighborhood stayed intact."

Mr. Smith-Betsill's willingness to step in and help anyone who needed assistance had an impact on thousands of people, but it nearly cost him his life in the fall of 1976. He was at a Howard Johnson's restaurant in Oakland watching the Steelers play when another patron became drunk, got loud and began harassing other customers. Mr. Smith-Betsill stepped in and tried to calm the man down, but the man pulled a gun and shot him in the face.

"That was the first time I fully realized how many people's lives he touched," said Harris-Betsill, "because so many people came to visit him at the hospital that they moved him to a bigger room and there was still a number of people who couldn't get in to see him."

Mr. Smith-Betsill moved to Harrisburg in 1972 and took a job with the Pennsylvania Department of Education as the western regional director of the Bureau of Corrections Education. He developed and implemented curriculum programming guidelines that provided inmates with educational opportunities.

Mr. Smith-Betsill remained active in a variety of different community service projects throughout his life and even after he retired. He also was an active member of the Macedonia Missionary Baptist Church in Harrisburg.

In addition to his wife, survivors include two daughters, Tracey R. Betsill of Harrisburg and Michelle Heggs of Pikesville, Md.; two sons, James P. Betsill and Michael E. Betsill, both of Harrisburg, seven sisters; three brothers; and five grandchildren.

He was buried Friday in Harrisburg.

A SPECIAL TRIBUTE TO AEROQUIP-INOAC ON THEIR OSHA VPP RECOGNITION

HON. PAUL E. GILLMOR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES Wednesday, June 12, 2002

Mr. GILLMOR. Mr. Speaker, I rise today to pay special tribute to an outstanding corporation based in Ohio's Fifth Congressional District. I am happy to announce that the employees of Aeroquip-inoac in Fremont, Ohio, have recently achieved an extraordinary level of success. The Aeroquip-inoac Corporation will

receive OSHA's highest level of Voluntary Protection Programs (VPP) safety and health management certification, that of Star Participant, on Friday, June 14, 2002.

Mr. Speaker, the people of Aeroquip-Inoac took it upon themselves to participate in the VPP by establishing a cooperative relationship between management, labor, and OSHA officials. Management established an effective program that meets the set OSHA requirements, and labor employees agreed to participate in an effort to assure a safe and healthful workplace. OSHA has verified that the program meets the established criteria and is recognizing the Aeroquip-Inoac Corporation for attaining the highest level of success.

Aeroquip-Inoac has joined the ranks of .01% of the six million companies in the U.S. to be recognized by OSHA under their Voluntary Protection Programs by achieving that status of Star Participant. As a company that produces Class A painted exterior trim products for the automotive industry I applaud them on their cooperative effort, which involved all of the 500 employees. This program not only increased employee motivation to work safely, but also increased productivity by reducing the number of lost workdays due to injury.

Mr. Speaker, I would ask my colleagues to stand and join me in paying special tribute to the Aeroquip-Inoac Corporation. Businesses in the U.S. are served well through participation in these types of voluntary programs, and like Aeroquip-Inoac, show what the American spirit of cooperation can accomplish. I am confident that the Aeroquip-Inoac Corporation will continue to improve their safety and health programs and I wish them well in their future endeavors.

REMEMBERING DR. WILLIAM NATHAN DANSBY

HON. CARRIE P. MEEK

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES $Wednesday, \ June\ 12,\ 2002$

Ms. MEEK of Florida. Mr. Speaker, I rise today in remembrance of the late Dr. William Nathan Dansby, a remarkable man whose personal achievement and community service are an example to us all.

Dr. William Nathan Dansby, 84, was born in Mobile, Alabama. He was educated in private elementary and secondary schools, including Stillman College (then Stillman Institute). He received the bachelor of science degree from Johnson C. Smith University in Charlotte, North Carolina, a master's degree in chemistry from Fisk University in Nashville, Tennessee, and a doctorate in dental surgery from Meharry Medical College, also, in Nashville. A proud Fraternity man, he was elected to Beta Kappa Chi and a member of Alpha Phi Alpha Fraternity.

A decorated veteran of World War II, Dr. Dansby served with distinction in the U.S. Army. He was appointed by the Tuscaloosa City Council to the City Board of Education in 1970 and was elected chairman of the board in 1985. He served on boards of directors of the Black Warrior Council of the Boy Scouts, the Martin Luther King, Jr. School National Network, the Benjamin Barnes YMCA, and the Maude L. Whatley Health Center. He was,

also, a member of the Kiwanis and Tuscaloosa Reunion Clubs.

As a devoted servant at Brown Memorial Presbyterian Church, he was installed an elder and very active in work of the Men of the Church, the Endowment Committee, and the Trustee Board.

In his last years of life, Dr. Dansby served his community by providing free dental services to those who could not afford to pay and helped in anyway he could to serve his various schools of matriculation and local organizations.

Dr. William Nathan Dansby passed away on Thursday, June 6, 2002 and will be laid to rest today in Tuscaloosa, Alabama. He was preceded in death by his parents, William L. Dansby and Portia Dorcette Canty Dansby, and his sister, Sarah Dansby Pinkney. He is survived by cousins, Theodora Dansby Johnson of Florida, Sondra Brown Julien of Florida, George F. Knox of Florida and their families. He leaves to cherish his memory a devoted family whom he adopted as his own, William and Elizabeth Rice of Aliceville and their three daughters: Mechelle, Benidia, and Portia.

As he is grieved, his family and friends know that his spirit has returned to God and that he is smiling down upon the world. Mr. Speaker, I ask all Members to join me in paying tribute to him this remarkable man.

HONORING PROFESSOR JERRY WOODALL ON HIS RECEIPT OF THE NATIONAL MEDAL OF TECH-NOLOGY

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES Wednesday, June 12, 2002

Ms. DELAURO. Mr. Speaker, it is with great pleasure that I rise today to pay tribute to Dr. Jerry Woodall of Yale University in my hometown of New Haven, Connecticut. Dr. Woodall was recently honored with the National Medal of Technology in recognition of his outstanding work in semiconductor materials and devices.

The National Medal of Technology was created to recognize those who embody the spirit of American innovation and have advanced the nation's global competitiveness. As one of only 120 individuals bestowed with this distinction, Dr. Woodall most-deservedly belongs among Connecticut's long legacy of innovators, like Eli Whitney and Igor Sikorsky.

It is no overstatement to say that, in a remarkable career that has spanned four decades, Dr. Woodall has truly expanded America's horizons through his groundbreaking advances in electrical engineering and physics. Half of the entire world's annual sales of compound semiconductor components would simply not be possible without his legacy of research. Technology used in CD players, TV remote controls, computer networks, cell phones, and satellites can be credited to Dr. Woodall as well as advances in the use of lasers and ultra-fast transistors and solar cells. What's more, Dr. Woodall's work will provide the basis for technological innovations for decades to come. Few can claim such a legacy.

Dr. Woodall's dedication and commitment to excellence have made a real difference in the quality of life of all Americans. I am honored to rise today to pay tribute to Dr. Jerry

Woodall and to join with our nation in congratulating him as he is honored as a 2001 Medal of Technology laureate.

ON THE CREATION OF THE DE-PARTMENT OF HOMELAND SECU-RITY

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES Wednesday, $June\ 12$, 2002

Mr. HASTINGS of Florida. Mr. Speaker, I rise today in support of the creation of a new cabinet-level federal Department of Homeland Security. This long-overdue initiative, designed to streamline current government activities, is an important first step in our nation's war on terrorism.

In October of last year, I introduced H.R. 3078, to establish the National Office for Combating Terrorism. It included an initiative to develop policies and goals for the prevention of and response to terrorism, and for the consolidation of federal, state, and local government programs. I am pleased to see that the Administration is incorporating my ideas, along with those of my colleagues, into a comprehensive plan to streamline the workings of the Executive Branch.

The new Department will have four separate divisions to deal with threats to our nation. Within each division, the missions and functions that are currently spread out amongst a dizzying array of federal agencies will be consolidated to avoid duplication and redundancy and ensure that the Executive Branch of government actually supports the tax payers who support it.

The concept of consolidating the efforts of federal, state, and local agencies is not a new one. I recently introduced H.R. 4754, the National Drought Preparedness Act. My legislation will bring together representatives from federal and state agencies to create planning models and preparedness plans, in much the same way that the new Department of Homeland Security would operate. I applaud this important initiative and urge my colleagues to work towards quick passage of legislation for the creation of this new Department.

EDWARD A. MOHLER: A CHAMPION FOR WORKING MEN AND WOMEN

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES Wednesday, June 12, 2002

Mr. HOYER. Mr. Speaker, today I want to pay tribute to a trusted, long-time friend who, for nearly half a century, has been a true champion for working men and women and the cause of organized labor throughout the State of Maryland and our great country.

For 12 years, from 1989 until his retirement in 2001, Edward A. Mohler served with distinction and effectiveness as the President of the Maryland State and District of Columbia AFL—CIO).

Ed not only was re-elected to that post three times, but also was one of the longest-serving executive officers of a state federation in the entire AFL-CIO. Before being elected presi-

dent by his fellow trade unionists, he was elected as Secretary-Treasurer of the state federation, serving in that position from 1977 to 1989.

It's clear to anyone who has observed Ed Mohler over the years that the legacy he leaves as a lifelong, dedicated trade unionist is one of concrete accomplishment that will endure for years to come.

In the State Capitol in Annapolis, where I worked with him while serving as the President of the Maryland Senate, Ed was instrumental in helping organized labor achieve legislative gains in the areas of workers' compensation benefits, unemployment insurance benefits, and collective bargaining rights.

Ed also played an important role in passage of the Maryland Occupational Safety and Health Act, prevailing wage legislation, pension and salary increases, protections for health care workers, and right-to-know protections for public safety workers.

In more recent years, Ed has helped lead the fight to defeat anti-worker initiatives such as right-to-work legislation and so-called "paycheck protection."

During his 24-year tenure as an executive officer of the state federation, Ed not only helped drive organized labor's policy agenda but also strengthened its administration. For example, Ed believed that the interests of working men and women would be much better served if the state federation maintained a permanent presence in Annapolis. As a result, the state federation moved from rental space in Baltimore to its current headquarters at the House of Labor on School Street in Annapolis, providing Maryland workers with both convenience to the State Capitol and prestige.

But, then, Ed always understood that the cause of organized labor—ensuring workplace fairness and social justice—could best be advanced through our political system.

After being hired as a cable splicer in 1957, Ed joined the Communications Workers of America, Local 2336, and immediately plunged into union activism and political campaigning. He has worked in political campaigns on behalf of Democrats at the local, state and federal levels, including the presidential campaigns of John Kennedy, Lyndon Johnson, Robert Kennedy and Hubert Humphrev.

More recently, Ed was elected to serve as a delegate at the Democratic National Conventions in 1992, 1996 and 2000.

Throughout the 1960s and 1970s, Ed was immersed in union activities and political campaigns that advanced the interests of working men and women. He was elected as chair of political activity for CWA, Local 2108, and then served as chair of the Committee on Political Education (COPE) for the Washington Metropolitan Central Labor Council.

Between 1968 and 1977, the year in which he was elected Secretary-Treasurer of the state federation, Ed worked as an organizer, legislative agent and staff representative for AFSCME International and Council 67. In that capacity, he conducted numerous organizing campaigns and was a strong advocate for public employees, beginning the fight for collective bargaining rights for state and higher education employees in 1974.

While working men and women have been the subject of many harsh, unthinking attacks over the years, Ed Mohler has always recognized that the immutable truths that lie at the
